SABG newsletters

Edited by Richard White, copyright © SABG 2004 - 2023

The sterling work of the previous Newsletter Editors, Robin Attrill (2004 - 2006), Mick Reed (2006 - 2010) and David Victor (2010 - 2015) is gratefully acknowledged.

Note that these are not web pages but are PDF files. However, depending on your web browser settings, your browser may treat them much like web pages, offering to display them on-screen, and you should be able to click on any web links they contain to go directly to the web pages which are mentioned. You may also wish to download and print them, or read them on your tablet or even on your smartphone.¹⁾

(For those of you in South Africa and other places in the southern hemisphere, the seasonal dates shown in some cases refer to the northern hemisphere seasons, where Spring is around March/April and Autumn (Fall) is around September/October.)

They were originally prepared as Microsoft Word (DOC) files using Microsoft Office Word, or more recently as Open Document Text Format (ODT) documents using Libre Office. If you need these versions, please let me know.

Some issues (16-21) show the name of the Group incorrectly as "The South African Bulb Group".

Other newsletters

By kind permission of IBSA, copies of their newsletters are sent to SABG members by email.

¹⁾

With some older web browsers or particular browser settings, this may not work the way you want, in which case try clicking with the right mouse button and choosing to Open or Save the file, then open the PDF files in Adobe Reader or other PDF reader program or app.
