

SABG

Noticeboard

(for more details on some of these items, go to the [“News items”](#) section below)

- Our next meeting is on **Sunday 6th October 2019** in Winchester, UK. Anyone interested in these plants is welcome, whether or not you are a member of the SABG. There will be plants and books for sale.
 - Newsletter no. 39 (April 2019) is now available
- **SABG Members: do we have your correct email address?** Newsletter no. 39 was sent on 2nd April to all SABG members whose email addresses we have. If you are a member and didn't receive it, please email Richard White (see [“Contacts”](#) on this page).
- A provisional revived version of [bulbweb](#) can now be viewed and searched.

Autumn 2024 meeting

Our next meeting will be on **Sunday 20th October 2024**.

The speaker for this meeting is **Alex Summers**, who was until recently the curator of the National Botanic Garden of Wales, now working in a National Trust garden. He will give a talk (title to be agreed). The NBGW has a large section devoted to plants from regions with a Mediterranean climate, including a collection of South African bulbs.

[Directions to the meeting hall](#). The doors will open at 10.00, and the meeting will close at about 14.30. SABG members, their guests and visitors are welcome. Admission is £3.00 and parking is free.

[→ Read more...](#)

More details of our meetings, including directions for getting there, are given on the [meetings page](#).

Other meetings

- Saturday in October 2024: *Nerine* visit day
- both organised by the [Nerine and Amaryllid Society](#) at the Five Arrows Gallery, Exbury Gardens, Exbury, Southampton SO45 1AX, by kind invitation of Nicholas de Rothschild and Theo Herselman. These events are for NAAS members, but SABG members are also invited; see the [NAAS events page](#), and please inform Theo or the NAAS Secretary Alison Corley alison.corley@btinternet.com if you wish to attend so that numbers can be estimated.

Further information

- More information about our meetings, the location and directions are shown on our [About our meetings](#).
- [More information](#) about the Group
- This is a [new version](#) of the SABG web site, which is intended to contain all the information from the [old version](#) (which will remain available for a while, but will not be updated). Please email me with any problems or suggestions.
- We have a Google [Calendar](#), so you can add our events to your phone or other device.
- A list of our [Past, present and future meetings](#)
- [Links to other web sites](#) including suppliers of bulbs and seeds
- We have started a [Digital library](#)

News items

- An SABG member has drawn my attention to a study of the South African species of *Ledebouria*,

which I have added to our [Digital library](#) [22 November 2023]

- The **November 2023 Ephemeral Seed and Bulb Exchange** has now finished. The material available was listed here [here](#). [22 November 2023]
- More options to order seeds and bulbs from South African and other suppliers are described in **Bulletin 48/3** emailed to SABG members. [23 June 2023]
- An SABG member is proposing to make a joint seed order to Silverhill Seeds, as described in **Bulletin 48/2** emailed to SABG members today. If you are an SABG member, didn't receive this bulletin and are interested in joining in, please let me know and I'll put you in touch. [10 April 2023]

About the Group

The SABG is based in the UK and is for anyone interested in growing the beautiful and diverse bulbous plants of South Africa and neighbouring countries. You do not need to be an expert (I'm not!) or live in the UK, but our meetings have all been in England so far.

The objective of the Southern African Bulb Group is to further the understanding of the cultivation of Southern African bulbs, where 'bulbs' is used in the broad sense to encompass bulb-, corm- and tuber- possessing Southern African plants, which are mostly 'monocots' (plants with strap-like leaves and flower parts in threes or sixes) but also including 'dicots' (with broad leaves and frequently five-petalled flowers) such as *Oxalis*.

Our activities include two meetings per year with talks and plant sales (recently these have been in Winchester in southern England), an annual bulb and seed exchange, and a newsletter with three or four issues per year.

Many of these plants come from the former Cape Province of South Africa, now the Northern, Western and Eastern Cape Provinces, and are easy to grow in a cool greenhouse or a sunny conservatory or window sill. They usually provide colourful flowers in autumn and winter and need a dry period in summer, because they are mostly winter growers from the winter rainfall areas of South Africa. Some are summer growers and a few of these will grow outside in southern or sheltered parts of the UK, such as *Agapanthus*, some *Nerines* and *Tulbaghias*, etc. Others, like *Lachenalia*, are real jewels to brighten up your conservatory when not much else is in flower.

About the SABG web site

- [Recently changed web pages and documents](#)

The SABG web-site started in October 2006. In April 2018, a new version of the SABG web site was established, which is intended to contain all the information from the [original SABG web site](#) (which will remain available for a while, but will not be updated). The URL (location, address) at which the web site can be found has not changed. It is www.sabg.uk or just sabg.uk. The software used to manage the web site is [DokuWiki](#). It is a secure web-site. If your web browser says it isn't, go to <https://sabg.uk>. Information about our compliance with the General Data Protection Regulation (GDPR) can be found in our [Privacy Policy](#).
