

We have pleasure in introducing our 2022/2023 catalogue/list of South African indigenous Bulbs/Corms and Seed, which we trust you will find of interest.

SECTION ONE: SEEDS ONLY

All seeds are sold in small packets, the quantity dependent on the scarcity and/or availability and could vary between 8 & 30 seeds. Unless otherwise indicated all seed on offer is from the winter rainfall region of South Africa and should be sown in the early Autumn (March/April) in the Southern Hemisphere and September/October in the Northern Hemisphere. All seed offered is largely harvested from mother plants cultivated by us, although some is collected from their natural habitat. Whilst every care is taken to Ensure that all seed proves true to type, no guarantee, expressed or implied is given. The Same applies to viability. However, should the unexpected occur, in either case, notification thereof would be appreciated.

PRICE PER PACKET: US\$ 7.80; UK£ 5.80; EU€6.75; Canada\$ 9.85; Australia\$ 11.00; Japan ¥ 850; NZD\$ 11.75

SECTION TWO BULBS & CORMS

All bulbs/corms are available from December through to March inclusive, when they are in their dormancy period. With the exception of any Summer rainfall species (marked S/R), all on offer are from the Winter rainfall region of South Africa. All stock offered is cultivated largely from seed collected from our Nursery, in addition to those sourced from local seedsmen, Kirstenbosch and small collections from plants in their natural habitat.

IMPORTANT: PLEASE NOTE

There are **TWO** categories of bulbs/corms on offer:-

CATEGORY A: All bulbs/corms of various tribes but, **EXCLUDING Amaryllidacea.**
In this category **three sizes** are on offer **A1 = 1 year old** bulbs/corms, **A2 = 2 year old** bulbs/corms, **A3 = 3 year old (plus)** bulbs /corms.

CATEGORY B: All **AMARYLLIDACEA.**

In this category **three sizes** are on offer **B1= 1 year old** bulbs; **B2 = 2 year old** bulbs; **B3 year old (plus)** bulbs.
